DESNA CONTROLS & WEIGHING INC.

CANADA'S CHOICE FOR
QUALITY AND SERVICE

SCALES

SCALE SERVICES & TECHNICAL SUPPORT

Desna offers complete service, repair, preventative maintenance and installation of most makes and models of weighing equipment:

- In-house and field service of weighing equipment by well trained and equipped staff for most makes and models of scales from electronic, mechanical, electrical and pneumatic applications.
- Heavy weights service truck for high capacity scales – over 2,500 kg/5,000 lb
- Medium weights service truck for medium capacity scales up to 2,500 kg/5,000 lb
- Service vans for general service and lower capacity scales
- In house testing of crane scales on rated test stand.

Scheduled Scale Services:

- **Scheduled service** - Annually, semi-annually, quarterly, monthly intervals based on customer's Quality Control requirements.
- **Regular service** is scheduled for customers requiring regular inspection and service for weighing accuracy, quality control, maintenance and service based on customer requirements.

OUR SELECTION

We carry the most comprehensive selection of scales, from the world's best manufacturers:

GROUP 1

- Portable Truck Scales
- Permanent Pit and Above Ground Style Truck Scales
- Unattended Weighing Systems
- Ticketing Packages

GROUP 2

- Check Weighers
- Washdown Scales
- Overhead Rail Scales

GROUP 3

- Crane Scales & Dynamometers
- Mechanical Portable Beam & Dial Scales

GROUP 4

- Lab Scales
- Bench Scales
- Counting Scales
- Retail Scales
- Health Scales

GROUP 6

- Tank/Silo/Mixer/Kettle Weighing Systems

GROUP 7

- Forklift Scales
- Loader Scales
- Belt Scales

GROUP 5

- Drum Weighing
- Drum Filling
- Floor Scales
- Pallet Jack Scales

APPLICATIONS

We service a complete range of weighing and measuring applications:

- Basic weighing
- Custom weighing applications
- Intrinsically safe/hazardous location applications
- Silo weighing and filling systems
- Blending systems (including loss in weight)
- Batching
- Weighing, packaging, printing and labeling
- Weighing and dimensioning systems
- Pail and drum filling stations
- Grading/classifying/sorting systems

Desna belt scale installation

Desna checkweighing application with price labeling and data tracking

Tank with Desna weighing system

Desna truck scales

Fertilizer blending system with Desna software to monitor feed rate using load cells

CUSTOM SOLUTIONS

Desna designed scale system for mud filling station

Desna integrated ski jump weighing system

GRAIN TESTERS/ MOISTURE METERS

We sell, service and calibrate all elevator style Model 919 Moisture Testers and Scales in-house. These include Labtronics, Motomco, CAE, Halross, Nuclear and Conuclear.

Our trained service technicians have been repairing and calibrating 919 style moisture testers since 1994.

Grain samples are received every 2 weeks from the Canadian Grain Commission to verify our calibration standard and ensure accuracy.

We also convert older models that have 3" cells to the new standard 3 1/2" cells*.

* Charts and calibration standards for 3" cells are no longer supplied or supported by the Canadian Grain Commission.
